

Our son has attended Bambi Academy since preschool. From year one we knew that we could not have made a better choice. The school delivers the highest standards of education. The teachers are professional, knowledgeable and very attentive. They truly care about the progress of every child. There is an ongoing communication between the teachers and the parents. The educational program is brilliantly designed and taught. Children are well prepared for the complex state tests of 3rd and 4th grades. We would recommend this school to any parent, who wants to provide his/her child with a robust educational platform. We were glad to learn that from this year Bambi Academy has extended its program to include high school.

We thank all teachers and the administration of Bambi Academy for the wonderful experience. Our special gratitude goes to Ms. Faina Vayner, our son's classroom teacher, for her exceptional professionalism and dedication to children. She supports, nurtures, challenges, encourages the kids to explore different activities and interests and inspires them to be involved and thoughtful class members, not just good students. Our son loves his school.
