

Nicole Sheynin 6-A

## Essay about my school

My name is Nicole Sheynin. I am in class 6-A. I really like my class because of its tidiness and friendly environment. I like our school, Bambi Academy, too. It is very entertaining and the learning program is very advanced.

The whole school gives me a feeling of a huge family because almost everybody knows each other! The other thing I like is the teachers. They are all very nice, smart and helpful, and none of the lessons are ever boring. Every day I learn something new and interesting.

I am very happy that I am learning in this particular school. I can proudly call it my second home.
