## Dear Mr. Gorny

We are the parents of Regina Avrutis, who is in your  $5^{th}$  grade class now. We want to express our sincerest appreciation to the Big Apple Academy known as the Bambi Academy. We are with your school for 6 years already, and it truly seems like just yesterday that we were getting Regina ready for her first day of school. In these past years Regina has grown into an honest, considerate, hardworking young girl and we know that we have Bambi to thank for that. The one-to-one attention that Regina received from your teachers has made her confident in her abilities and sparked her interest in many different subjects.

Bambi Academy's mission is to offer a perfect balance between the intellectual development and the fundamental classes; to ensure that all children receive the most essential knowledge along with the ability to use it. Students are taught in a variety of learning and communications styles, within a safe and structured environment. They excel at a challenging course of study in writing, math, languages and literature, logic, research and computer skills, history, geography, scientific methods, arts, music, and physical education (especially swimming classes). Students pass their State tests with flying colors and demonstrate impressive results at National Math and Language Arts Olympics.

More than anything else we would like to thank you for the fun that Regina has had during her time at Bambi. Every day she would arrive home with tales of mad scientist experiments, fantastic fiction books and field trips that she will remember for the rest of her life. Bambi Academy School is a supportive community focused on giving each student the best education possible, and your leadership provided Regina with just that.

A true teacher is not someone who just teaches academic lessons to his/her students. Rather, he/she is like a guide, who helps the students in each and every sphere of life, by giving the right advice. They are future makers. None of the achievers in this world has attained a feat without the guidance of a teacher. All this is about our home class teacher Lyudmila Shevchenko and special thanks to her. Thanks to dedicated teachers like you Luda, and your investment in our children. Thanks to you for the work you do, both in the classroom and beyond.

Every time I call your school I am handled with courtesy & hospitality as well as professionally. You and your team have been there for me in times of need. We will always appreciate that. Every individual has at least one teacher in his life who leaves a great influence in his personality. We think that all of your teachers do that and Regina as well as we will remember everyone. Good teachers not only help students with their studies but also mold their overall personality. Teachers put in their best efforts in an attempt to teach their students all they can, only with the wish that they do well in life.

Bottom line, Bambi Academy is the best place to study, thanks to the men and women who devote themselves to the education of our children. Thank you for investing in our child's future by hiring teachers that really make a difference in Regina's life.

Warmest Wishes,

Igor and Ninel Avrutis
