

BIG APPLE ACADEMY

MATHEMATICS DEPARTMENT

Dear parents,

The department of mathematics is providing sets of summer homework assignments for our students. While the students should relax and get plenty of rest, we also don't want them to regress from the knowledge they have accumulated over the past year. Every summer homework set contains small daily assignments, which will help students stay current on the subject terminology and problem-solving skills.

These assignments are only mandatory for students whose grade for the year is below 80%. Some of the students might get additional summer assignments from their teachers, if the teachers believe it would help them.

I hope you agree with us on the importance of these assignments and will support our math teachers in keeping our students ready for the upcoming academic year.

Thank you, and have a great summer.
