

September 27, 2017

Dear Parents,

We are excited to introduce a new and exciting service that Big Apple Institute will be deploying starting October 1, 2017.

This new service will offer real-time tracking of your child's school bus while it is en route. This is a web-based system, and will be accessible using any smartphone, tablet or a PC.

Currently, the system is in its early stages of development and will be improved on an on-going basis to offer additional benefits and features based on your feedback.

If you are interested in participating in this project, please navigate to www.bambibuses.com and click on PARENT SIGN UP button. Once you enter your email, you will get a temporary password in that mailbox. For your convenience, we have imported a list of emails from the school's internal system. However, if you get an error message upon sign up that the email address is not registered with the system, please send your full name, and email address you want to register to support@bambibuses.com.

If you have any further questions or concerns regarding this service, please email support@bambibuses.com or call (718)975-7589 technical support.

Sincerely,

Vlad Gorny
Principal
