

Principal's Desk

Dear Big Apple Academy community!

We are exceptionally proud to deliver our greatest and latest news! Today, the Big Apple Academy celebrates its history-making accomplishment--National recognition as an exemplary high performing school! More than two decades in the making, the Big Apple Academy had made terrific strides toward achieving the highest title and the greatest recognition possible in the field of education--Blue Ribbon status.

This year, the Big Apple Academy was selected among thousands of private schools across the United States as an academic institution whose students outperformed millions of their counterparts on major state and national assessments.

At this proudest moment in the history of our school, I would like to thank the members of the school administration, our incredible chairpersons and talented educators for making this momentous event possible. I am also sincerely proud of our students and their performance which makes the Big Apple Academy worthy of this honor. And, of course, my sincere gratitude goes to the parents who entrusted the Big Apple Academy to provide their children with a high quality, award-winning education!

Sincerely,

Vlad Gorny
Principal
