

Big Apple Academy

A NATIONAL BLUE RIBBON SCHOOL OF EXCELLENCE

Learning Today, Leading Tomorrow

2937 86th Street, Brooklyn, NY 11223 • Tel: (718) 333-0300 • Fax: (718) 333-1311

Dear parents,

The Big Apple Academy Math Department has implemented the Pearson Envision 2020 Mathematics Program. This Pilot Project supplies students with technologically enhanced individualized instruction and a custom plan for enrichment and remediation.

Each student has received a username and password which will allow him or her to access the Envision 2020 system at the following URL: www.pearsonrealize.com
In case you have misplaced your child's log-in information please contact the school.

Please help us and your child to do everything necessary to start using the [Pearson EasyBridge](#) application:

Your child will get a few electronic assignments through the program every week. Currently, these assignments are:

- Visual learning (2 min video) – daily; this will allow the student to listen to the explanation of a new topic as many times as necessary;
- Vocabulary cards – for every topic; using the vocabulary cards, the student should memorize the definitions of each new term and review previously learned ones. Students could print the completed cards at home and bring them along, or send them to the teacher electronically.
- Every weekend, the student will get a practical assignment which should be completed online. Everything the student does must be submitted for the teacher's review on time (due date will be provided for each HW).
- The teacher will observe the student's work and assess his or her progress. Late HW will be marked at a maximum 90% grade (instead of 100%).

Should you have questions, please contact your child's Mathematics teacher.

Sincerely,

Svetlana Kozorezova
Mathematics teacher

Violetta Dubinina,
Chairperson
Mathematics Department
