

Big Apple Academy

2022

Mathematics Department

Summer Math Homework Package

Grade 7 → 8

It is important that you keep practicing your mathematical Knowledge over the summer to be ready for **8th grade**.

In this Package you will find a calendar of activities for the month of July and August.

What should you do?

- Take a new notebook for every-day practice. For each day you will need 2 pages;
- Start each day with vocabulary words: copy each word from the given day-list, find and write the meaning of each word in your notebook on the front page (pages 1,3,5, . . . and so on):
- Use the internet to find the meaning of each word you do not know:

https://dynamiclearningmaps.org/sites/default/files/documents/ERP/dlm_math_glossary.pdf

- Solve the problem of the day and write the solution with full explanation on the back page (pages 2,4,6,. . . and so on);
- Have the date of the entry. Have a clear and complete answer. Be neat and organize.
- Do not forget to bring your notebook to school on September 6, 2022 - the first school day.

Have a Great Summer!!

3	0	1	7																		
4	2	4	5																		
Write the equation of the line QR, if Q(-1, 2) and R(-4, -4).	Show that $n^3 - n$ is divisible by 6 for any integer n.	The line $2y + 3x = 0$ cut the triangle out of the 1 st quadrant. Find the area of this triangle.	Graph the solution for $2x - 4 \leq 8$ and $x + 5 > 7$.	Write 3 distinct integers, 3 distinct rational numbers and 3 distinct irrational numbers.	Angles of the triangle ABC is the consecutive even numbers. Find the measure of the largest angle.																
Subtract $4x^2 - x - 1$ from $3x^2 + 6x - 7$.	The price of the I-phone is \$595 after the discount of 15%. What was the original price?	Write in scientific notation form the product of $(1.3 \cdot 10^4)$ and $(2.5 \cdot 10^3)$.	Sam has 20 coins, some of them are dimes and other are nickels. How many dime if the total is \$1.55?	The circle is inscribed into an isosceles trapezoid with bases 4 and 16. Find the radius of the circle.	The average of 11 consecutive integers is 37. Find the largest integer of the set.																
<table style="margin-left: auto; margin-right: auto; border-collapse: collapse;"> <tr> <td style="border: 1px solid black; padding: 2px 5px;">.</td> <td style="border: 1px solid black; padding: 2px 5px;">.</td> <td style="border: 1px solid black; padding: 2px 5px;">.</td> <td style="border: 1px solid black; padding: 2px 5px;">.</td> </tr> <tr> <td style="border: 1px solid black; padding: 2px 5px;">A</td> <td style="border: 1px solid black; padding: 2px 5px;">B</td> <td style="border: 1px solid black; padding: 2px 5px;">C</td> <td style="border: 1px solid black; padding: 2px 5px;">D</td> </tr> </table> If $18 = AC = 3CD$ and $BD = 8$, find AB.	A	B	C	D	Factor completely: $16a^2 - 81$.	If $3a = 7$ and $b \div 3 = 1$, find the product ab.
